Advice for JAE Application

1. Consider all 12 course choices wisely before submitting online.
2. Refer to the **important points to note** for **registration of courses before making your course choices**.
3. **Beyond academic requirements**, some courses may require you to **meet non-academic requirements**, such as **passing of pre-admission medical examination before enrolment**. These requirements can be found in the **JAE information booklet**, and you are advised to **consider these requirements** when making your choices.
4. The **L1R5 net aggregate and ELR2B2 net aggregates** of the **lowest ranked students** who were admitted to the JC and polytechnic courses respectively through the **2024 JAE** **serve only as a guide** and do not constitute the admission scores for the **2025 JAE admission exercises**.

Advice for JAE Application

5. You should indicate at least **2 to 3 courses** where your **aggregate scores (net)** are **much better than the course cut-off points (COP)** in **2024 JAE**, to stand a **better chance for admission**.
6. You **should not make only a few course choices**. In the event you are **unsuccessful in getting a place** in any of your registered choices, you will be **posted to a course with remaining vacancies** after **all the other students** are being posted according to their registered choices.
